

Application Serial No. 10/048,114
Amendment dated July 30, 2007
Reply to Final Office Action dated April 5, 2007

Amendments to the Drawings

Please substitute Figure 1 for the drawing sheet originally filed and add the new drawing sheet containing Figure 2. Figure 1 has been changed by enlarging the font for the figure number and Figure 2 is a flow chart setting forth the process steps in accordance with the requirement made by the Examiner.

Enc. Replacement Sheets (2)

REMARKS/ARGUMENTS

As required by the Examiner, a new drawing sheet has been added to the application containing the claimed method steps.

The specification has been revised to delete the embedded hyperlinks.

Claim 15 has been amended to include essentially the subject matter of canceled Claims 13 and 14. Claim 16 includes all of the limitations of Claim 15 and is further limited to call for formatting textual data contained in graphics data into mere textual format. For the reasons set forth below, it is submitted that the amended claims are not anticipated by Moriya.

Each of independent Claims 15 and 16 calls for the data-requesting device to send a "list of usable display formats" to the data-preparing device. The data-preparing device then, according to availability, selects the best suited display format "from the list of usable display formats transmitted by the data-requesting device". Although the system of Moriya provides for sending a model code indicating the capabilities of the data terminal to the central facility, it does not disclose the claimed transmission of a "list of usable display formats" whereupon the data-preparing device then selects the best suited display format from the list. Accordingly, the claims are not anticipated by Moriya.

It is believed that the application is now in condition for allowance and such action is earnestly solicited.
